Udaipur is a royal city that had been the capital of Mewar rulers for centuries. The romantic city of Udaipur has a legend behind its origin and it goes like this. Once, Maharana Uda Singh happened to meet a holy sage when he was on his hunting expedition in the Aravalli Hills. The Sage counseled the King to establish a kingdom in the fertile valley that would be well-protected by the elevated Aravalli Hills. Subsequently, Maharana Udai Singh laid the foundation stone of Udaipur in 1557 A.D.

Chittorgarh was the previous capital of the Rajput kingdom of Mewar. Maharana Udai Singh was a successor of the Sisodias, who claimed to be the descendants of the Sun God. The Sisodias are believed to be the oldest
District Collector and Chairman, UIT

Udaipur has been identified as one of the 4 Smart Cities in the state. Being a tourism centric city and clean and green environment, it is a preferred destination amongst both national and international travellers.

The office of District Collector in close coordination with Nagar Nigam, Urban Improvement Trust and other Government line departments has prepared a very strong Vision and Smart City Challenge Proposal. I deeply appreciate the support and valuable suggestions of the public and stakeholders from all sectors in the preparation of this vision document. I congratulate to all for selection of Udaipur in the Smart City Challenge. With warm wishes

Rohit Gupta IAS
Mayor, Nagar Nigam

Under the able leadership and guidance of the Principal Secretary (Local Self-government) supported by the District Collector, the officials from Nagar Nigam, the officials from Urban Improvement Trust and other Government departments, a detailed smart city proposal has been prepared with overwhelming public participation from all sections of the society.

I congratulate all the Councillors, public workers and citizens of Udaipur for selection in first 20 smart cities. We were confident as Udaipur is an important tourist destination in the map of India and we will take it to the tourist map of the world.

With warm wishes
Chandra Singh Kothari
Commissioner, Nagar Nigam

It gives me immense pleasure to write that Udaipur has been selected amongst the 20 smart cities of this country by the Ministry of Urban Development, Government of India. The city of Lakes Udaipur has a legend behind its origin. Udaipur is known for its picturesque surroundings and royal past. Various ancient monuments massive palaces, architectural temples, heritage properties and beautiful lakes fascinate worldwide tourists to visit this historic city.

The Vision document of Smart City was titled Eternal Udaipur: World’s Favourite Lakeside Heritage City. I thank the able leadership and guidance of Principal Secretary, LSG, Divisional Commissioner and District Collector. The Nagar Nigam has formulated a strong proposal with the involvement of the Urban Improvement Trust and all Government line departments and overwhelming public participation from all sectors and stakeholders including travel and tourism industry representatives.

It is also encouraging to note that the Smart City initiative of Udaipur has also generated interest from Denmark and bodies like FICCI and International Council for Local Environmental Initiatives (ICLEI). We are confident of achieving the vision of smart city.

With warm wishes
Sidharth Sihag IAS
AMRUT Mission

Atal Mission for Rejuvenation and Urban Transformation (AMRUT) is proposed to provide basic services (e.g. water supply, sewerage, urban transport) to households and build amenities in cities which will improve the quality of life for all, especially the poor and the disadvantaged.

THRUST AREA

The Mission will focus on the following Thrust Areas:

- Water supply
- Sewerage facilities and septage management,
- Storm water drains to reduce flooding,
- Pedestrian, non-motorized and public transport facilities, parking spaces.
- Enhancing amenity value of cities by creating and upgrading green spaces, parks and recreation centers, especially for children

SMART CITY

- **Introduction**
  - The Prime Minister launched the flagship Smart City Mission, along with the AMRUT (Atal Mission for Rejuvenation and Urban Transformation) and the ‘Housing for All’ missions, on 25th June 2015, aimed at transforming urban India. There is a strong complementarity between AMRUT and the Smart Cities Mission in achieving urban transformation. While AMRUT follows a project-based approach, the Smart Cities Mission follows an area-based strategy.

- **Smart City Mission**
  - The Smart City Mission is primarily targeted to provide core infrastructure and give a decent quality of life, a clean and sustainable environment and application of ‘Smart’ Solutions. The focus of the mission is on sustainable and inclusive development. The Mission will cover 100 cities distributed amongst the States and UTs and its duration will be five years (FY2015-16 to FY 2019-20). The criteria for allocation of number of Smart Cities per state are based on the urban population and number of statutory towns in the respective state.

**Typical / Key Features of Smart Cities**

![Image of Smart City Features]

- Cities may add any number of smart solutions to the area-based developments to make government funds cost effective.

**E-Governance and Citizen Services**
- 1. Public Information, Grievance Redressal
- 2. Electronic Service Delivery
- 3. Citizen Engagement
- 4. Citizens - City’s Eyes and Ears
- 5. Video Crime Monitoring

**Waste Management**
- 6. Waste to Energy & fuel
- 7. Waste to Compost
- 8. Waste Water to be Treated
- 9. Recycling and Reduction of C&D Waste

**Water Management**
- 10. Smart Meters & Management
- 11. Leakage Identification, Preventive Maint.
- 12. Water Quality Monitoring

**Energy Management**
- 13. Smart Meters & Management
- 14. Renewable Sources of Energy

**Urban Mobility**
- 16. Smart Parking
- 17. Intelligent Traffic Management
- 18. Integrated Multi-Modal Transport

**Others**
- 19. Tele-Medicine & Tele Education
- 20. Incubation/Trade Facilitation Centers
- 21. Skill Development Centers

SMART CITY

The 3 key elements that are unique to this mission as compared to the previous urban reform programmes are:

- Challenge or competition method to select cities for funding.
- Strategy of area-based development, which can then be replicated
- Citizen’s involvement from conceptualization stage till the end

Citizens Engagement

The strategy was focused to engage all segments i.e. men, women and children at home, public places, institutions and work places through personal, in-group’s and media contacts. All key stakeholders – residents/elected representative, civic authorities, industrial / trader organizations were mobilized and actively engaged to dialogue and describe their views on long term vision and the top of mind five priorities for improving quality of life.

Ward level Citizen Consultations
SMART CITY

Citizens Priorities from Ward level Consultations

- 12 parameters were prioritized in 1 – 5 scale
- 64,486 feedbacks received

- Udaipur selected among first twenty cities in the II round challenge.
