Sub: Construction Management System: Circular – 71

Ref: Guidelines for Protection of important assets created by RUIDP.

1. It has been observed that safety of the public and safety of the drinking water supply quality is at risk due to not having protection/ fencing around the assets created by RUIDP. Following may happen due to non-protection of such places/installations/structures but not limited to:

   a. Over head tanks near schools where the children were free to run up the tanks during recess.

   b. It has been a common occurrence that some public persons climb up the tank and create a scene to attract attention.

   c. The treatment facilities and tanks are vulnerable to persons drowning in them.

   d. Anybody can use free access to treatment plants to pollute the system.

2. IPUs & DSCs shall prepare a comprehensive list with location and protection already provided/ proposed to be provided in the following formats:

<table>
<thead>
<tr>
<th>S. No.</th>
<th>Name of Town</th>
<th>Location</th>
<th>Protection Provided</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>ESR</td>
<td>CWR</td>
<td>WTP</td>
</tr>
</tbody>
</table>

It is requested that the above data as given may be checked and corrected/updated and updated information has to be submitted by 10th of every month to TL IPMC in hard and soft copy.

3. It is directed that such places/installations/structures should be properly protected and free access to them from public should be denied for the structures/system created by RUIDP.

4. It is hereby directed that such vulnerable places/installations/structures should be identified at the earliest and work should be completed by the end of January 2013. The options of such protection can be:

   a. Compound Wall with gates with locking arrangements.

   b. Fencing (barbed wire/chain link) with gates with locking arrangements

   c. Gate on the stairs of ESR with blockage to direct entry up to one storey height

5. It has been decided that unprotected units should be protected at the earliest. These works should be taken up and got done through any active contract. Proposals may be sent to PMU by way of variation for approval as required.

Installation of Water Meter:

6. Guidelines for implementation of various road maps, agreed with ADB, under compliance of loan assurances and Institutional & Financial Improvement Action Plan (IFIAE) for RUSDIP was issued vide CMS circular no. 28.

7. Under the agreed Loan Covenants installation of 100% consumer water meters is a very important covenant and the targets have to be achieved. The progress
in this regard is not up to the mark. EE, IPIUs are hereby directed to follow-up with District Administration and PHED for achieving the 100% water metering. EE, IPIUs are directed to submit monthly status report in the following format:

<table>
<thead>
<tr>
<th>S. No.</th>
<th>Name of Town</th>
<th>Water Meter Installation</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>Target</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

It is requested that the above data as given may be checked and corrected/updated and updated information has to be submitted by 10th of every month to TL IPMC in hard and soft copy.

8. SE (WS), PMU to coordinate with TL IPMC, monitor the status regular basis for achieving the targets and apprise the PD on monthly basis.

This circular is equally applicable to all members of PMU, IPIU, IPMC & DSC.
